eGovernment Services — API

USER INTERFACE — CITIZENS

Translation workspace · Website Translation Widget · Terminology portal

TECHNOLOGIES

Neural Machine Translation · eTranslation · Translation Memory · Data repository · Speech tools · Computer-Assisted Translation

SDL plugin

Project Goals and Objectives

- Maturing National Language Technology Platform (NLTP) that combines the latest AI-driven language technology solutions
- Providing NLTP for public administrations, SMEs and general public as an efficient way to ensure multilingual access to online services, websites, documents and information
- Adapting and deploying NLTP in Malta, Estonia, Croatia, Iceland (and extending HUGO.LV platform in Latvia) as part of the national eGov infrastructure
- Ensuring sustainability of NLTP in the project countries beyond the EU funding period
- Promoting NLTP in other EU member states.
